

## Hip Hop

Thursday's 2-245pm

Live online class through Google Meet

Are you looking for an activity for your child during these distance learning times? Does your child dance around the house? Does your child have a lot of energy and charisma? If so, then I would love to share with them my love for dance.

Hip Hop can improve muscle tone, strengthen posture, increase balance and coordination and improve health. But the biggest benefit of dance is that it's fun. Your child will learn choreography to Pop and Hip Hop hits that currently dominate the airwaves. We dance to express not to impress.

September 10th, 17th, 24th

October 1st

Set of 4 classes at \$5/ each

Payment by Venmo or CashApp only
